"PATENT TROLLS USE THE COMPLEX NATURE AND HIGH COST OF PATENT LITIGATION TO FORCE MANY COMPANIES TO PAY OUT HIGH SETTLEMENT AMOUNTS."

Patent litigation can be, and often is, both complicated and expensive. Patent trolls use the complex nature and high cost of patent litigation to force many companies to pay out high settlement amounts. To successfully respond these cases, your litigation counsel must not only be able to expertly navigate the intricacies of patent law and patent litigation, but must also be able to manage the cost of litigation a every phase of the case.

"Your litigation counsel must not only be able to expertly navigate the intricacies of patent law and patent litigation, but must also be able to manage the cost of litigation a every phase of the case."

I endeavor to provide excellent representation with a focus on efficiency and effective prioritizing so that a case can be properly driven by its merits, not by litigation costs.

I have successfully represented both plaintiffs and defendants, including both small startup and Fortune 500 companies, in patent litigation spanning a wide variety technologies including those found in the mechanical, chemical, software, and pharmaceutical areas.

Member, American Intellectual
Property Law Association (AIPLA)

**PRIOR PROFESSIONAL
EXPERIENCE**

Shareholder, Workman Nydegger

I have experience in all aspects of patent litigation from opinion work to instigating actions to appeals before the United States Court of Appeals for the Federal Circuit. Some of my most important work, however, involves protecting my clients from or minimizing the duration of litigation.

Because intellectual property is an important asset to small startup companies and large corporations alike, it must be developed and protected properly and early on. I also help my clients to recognize that investing a little effort now can build a valuable portfolio of assets and avoid disastrous losses in the future.

Mr. Duke is a registered patent attorney and a member of the firm's Intellectual Property and Litigation sections. His practice focuses on patent infringement litigation but includes all aspects of intellectual property litigation, including disputes involving trademarks, trade secrets, copyrights and unfair business practices. Mr. Duke has successfully represented clients in several federal district courts and before the United States Court of Appeals for the Federal Circuit. Mr. Duke is also experienced in intellectual property licensing, intellectual property portfolio management, providing formal intellectual property opinions and alternative dispute resolution.
